

EXPERIENCE

Data Science and Machine Learning Intern — Stem Robotics (Online)	May 2024 – May 2024
• Gained practical experience in machine learning and data preprocessing using Python. • Built and evaluated basic predictive models applying Pandas, NumPy, and Scikit-learn.	
Web Development Intern — Qnayds LLP (Online)	July 2024 – July 2024
• Developed responsive web interfaces using HTML, CSS, JavaScript, and React.js. • Enhanced frontend performance and usability, improving page load efficiency by 20%.	
IBM SkillsBuild: AI and Cloud Training - AICTE–Edunet (Online)	July 2025 - Aug 2025
• Gained hands-on experience with AI and Cloud platforms. • Explored practical applications of emerging technologies. • Built a personalised path web app to enhance user experience.	

EDUCATION

B.Tech in Computer Science and Engineering	
Ilahia College of Engineering and Technology (ICET)	2022 – 2026
CGPA: 6.81	
Computer Science	
Mambaram Higher Secondary School	2019–2021
Percentage: 91	
SSLC	
Mambaram Higher Secondary School	2018–2019
Percentage: 96	

PROJECTS

Smart Epidemic Surveillance and Management System (Minor Project)	2024 – 2025
• Designed a web-based system to predict disease outbreaks using regional data analysis. • Implemented real-time alerts for hospitals and clinics through automated SMS notifications. • Facilitated hospital–clinic data sharing to enhance epidemic preparedness.	
Railway Obstacle Detection (Major Project)	2025 – 2026
• Engineered a real-time obstacle detection system using CCTV input and the YOLO model. • Utilized Jetson Nano, EfficientNet-B0, and CBAM to achieve accurate detection and warnings. • Enabled proactive accident prevention through automated alert generation.	

ACHIEVEMENTS

Data Analyst Certification — Oneroadmap (2024).
Kerala School Kalolsavam — District and State Level Performer (2017).

VOLUNTEERING

Technovalley Technology Club — ICET.
Codec — ICET.

TECHNOLOGIES AND SKILLS

Programming Languages: Python, Java, C, HTML5, CSS3, JavaScript.
Frameworks & Tools: Django (Beginner), Git, GitHub, VS Code, Flutter (Beginner).
Web Technologies: Responsive Web Design, REST API Basics, Frontend Development, Backend Development.
Databases: MySQL (Basic), MongoDB (Basic), SQL Basics.
Concepts: Object-Oriented Programming (OOP), API Integration Basics.
Soft Skills: Communication, Teamwork, Problem Solving, Leadership, Quick Learning.
